

## Press release

---

### **New product catalogue available in July**

**The producer of technical hoses introduces the new catalogue „Norres Manual for Industrial Hoses“.**

#### User friendliness makes finding the solution easy!

In addition to details on the substantial product assortment, there is precise additional information regarding materials, norms and regulations as well as dimensions and assembly information. Detailed and clear structures as well as in-depth information regarding hoses turn the catalogue into an ideal reference book. As such it is not only a help in finding solutions for professionals in this area, but also a quick overview for people new to this business.

#### New products

Hoses and connecting elements according to the newest guidelines and regulations, such as FDA, EC/2002/72, BGR 132, UL 94 and ATEX.

#### Source of supply

The catalogue can be ordered free of charge under: [info@norres.de](mailto:info@norres.de)
