

PRESS-RELEASE

NORRES stand at SPS 2011 a resounding success

Better – safe – NORRES cable protection systems at SPS/IPC/DRIVES 2011

The Nuremberg SPS exhibition ended very successfully for NORRES Schlauchtechnik with numerous new customer contacts and interesting exchanges. Under the motto "Better – Safe – NORRES cable protection systems", visitors to the trade fair were invited to discover ways in which safety at work can be realised easily, quickly and safely.

A successful show: NORRES at SPS 2011

SPS in Nuremberg marked the end of the exhibition season for the NORRES trade fair team. The final event of 2011 provided renewed confirmation that there is considerable market demand for NORRES' branded products! The NORRES range of cable protection conduits and the NORRES team's acknowledged consulting expertise proved to be a winning combination at the SPS stand, where the foundation was laid for numerous new customer contacts. As a result of this, NORRES was able to strengthen both its national and its international client base still further. NORRES' value adding features such as high availability and prompt shipment coupled with durable and sustainable products at competitive prices and the NORRES consulting and service package all contributed to the huge success of the SPS exhibit.

New "Cable Protection Systems CP2" catalogue

"Cable Protection Systems CP2", the new NORRES product catalogue, was presented to experts from many different countries at SPS 2011. The catalogue has a clear and simple structure that makes it easy to read. It has also been given a new look that particularly impressed visitors to the fair: each chapter on cable protection conduits is followed by a matching chapter with compatible connectors. Finally, the catalogue offers a wealth of basic technical information about cable protection conduits – from raw materials through processing to potential applications. The new NORRES "Cable Protection Systems CP2" catalogue provides a concise summary of all essential facts and figures.
