

Plastic counter nut

Applications

- Cable protection: accessory for cable protection screw connection for assembling of fitting protection hose, electric installation, switch cabinets, switch cabinet installation, cable harnessing/ cable assembly

Properties

- good resistance to oil, gasoline, and chemicals
- good resistance to alkalis and acids

- thread reference: M (metric) to EN 60423, P (PG) to DIN 40430
- conforms to RoHS guideline

Temperature range

- -40°F to 212°F

Design

- accessories
- Plastic (PA6 glass fiber reinforced)

Delivery variants

- further diameters available on request
- gray (standard), black (standard)
- special colors: full colored

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at www.norres.com/us/technology/. NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68°F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimate user of the product. The individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as a general guide only.
