

High-temperature hose, clamp profile hose (clip hose), multi-layer, insulating, suitable for slight overpressure (up to +1,292°F)

# **Applications**

- flexible hose/ ducting for hot and cold gases
- vehicle/ car gas exhaust system, gas extraction: hose reel, slotted floor channel, underfloor extraction system
- engine test bench, exhaust gas measurement
- high temperature extraction: oven, foundry, furnace, smelting, ceramics industry, glass industry, steel plant, aluminium mill
- bellows, compensators

### **Properties**

 very good resistance to flying sparks and welding sparks

- secure clamping of the wall within the clamp profile
- insulating
- suitable for light overpressure
- · very good heat resistance
- conforms to RoHS guideline
- REACH according to --> Technology / Technical Information / REACH

#### Temperature range

• -75°F to 1,200°F

• short time to 1,300°F

### Design

- CP construction
- Clamp profile supporting spiral: galvanised steel
- multi-layer hose wall
- wall: interior and exterior special coated glass fabric, thermo-insulation fabric
- · special thermal insulation layer

# **Delivery variants**

- further diameters and lengths available on request
- stainless steel (INOX) clamp profile

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at <a href="https://www.norres.com/us/technology/">www.norres.com/us/technology/</a>. NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68 °F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and <a href="https://www.norres.com/us/technology/">ultimater of the hose in an arched position. Additional information at <a href="https://www.norres.com/us/technology/">www.norres.com/us/technology/</a>. NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68 °F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimater of variables make firm recommendations technically impossible. This information is intended as a general guide only.
