# **CONNECT 206**

## Connectors for connecting or attaching metal hoses

## **Properties**

· conforms to RoHS guideline

- <b>Quick-release coupling 206</b>: quickrelease coupling with several clamp clips, option of coupling with clamp clips or flange with flat face, extension at one end for attaching the metal hose
- REACH according to --> Technology / Technical Information / REACH

### Design

• Stainless Steel (INOX)

### **Delivery variants**

• further diameters available on request

No. clamp	Suitable for hose I.D.	Order No.

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at <a href="https://www.norres.com/us/technology/">www.norres.com/us/technology/</a>. NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68 °F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimate user of the product. The individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as a general guide only.
