

# CONNECT 226

## Soft sleeve for SuperFlex hoses

### Applications

- industrial vacuum cleaners, vacuum cleaners

### Properties

- easily and quickly fitted
- re-usable (threaded version)

- good resistance to alkalis and acids
- good resistance to chemicals
- conforms to RoHS guideline
- REACH according to --> Technology / Technical Information / REACH

### Temperature range

- -5°F to 160°F
- short time to 175°F

### Design

- wall: high grade soft PVC

### Delivery variants

- further diameters available on request
- black (standard)

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at [www.norres.com/us/technology/](http://www.norres.com/us/technology/). NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68 °F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimate user of the product. The individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as a general guide only.
