## **CONNECT TANK TRUCK BRASS 252**

## Brass tank truck coupling

### **Applications**

- silos and tankers: silo charging, silo discharging
- for conveying of dry media and liquids

### **Properties**

- according to EN 14420 -6
- Not to be used for explosive fluids group 1 and not according to pressure equipment directive
- REACH according to --> Technology / Technical Information / REACH

#### Design

• material: brass

Overpressure and underpressure are recommended threshold operating values, products can be subjected to higher loads upon request. The bending radius is measured through the inside of the hose arch. The right to make technical modifications is reserved. All values determined at 20 °C and are approx. data.
