3126 CALORFORM

Waterhose

Applications
- Suitable for salt and hot water
- for use on construction sites, for various industrial applications and in shipyards

Properties
- according to the norm EN ISO 1307:2008
- wall and inner tube electrically conductive <10^6 Ω
- UV and ozone resistant
- Very flexible and kink resistant
- burst pressure 60 bar

Temperature Range
- -40 °C to 95 °C
- short time to 110 °C

Design
- inner tube made of EPDM
- outer layer made of EPDM
- outer layer smooth and extruded
- textile plies
- inner tube extruded

Delivery variants
- black inner tube, black exterior wall, 4 yellow stripes

Overpressure and underpressure are recommended threshold operating values, products can be subjected to higher loads upon request. The bending radius is measured through the inside of the hose arch. The right to make technical modifications is reserved. All values determined at 20 °C and are approx. data. Additional information at www.norres.com/en/technology/.
