

# PROTAPE® TPE 326 MEMORY

## Crush resistant exhaust gas hose

### Applications

- flexible hose/ ducting for hot gases
- vehicle/ car gas exhaust system, gas extraction: hose reel, slotted floor channel, underfloor extraction system
- engine test bench, exhaust gas measurement

### Properties

- fabric reinforced
- highly flexible + compressible
- protected, flow-optimizing exterior folds
- vibration resistant

- crush resistant
- good resistance to chemicals
- conforms to RoHS guideline
- REACH according to --> Technology / Technical Information / REACH

- special plastic-profile supporting spiral
- fabric-reinforced tape
- wall: EPDM/ PP coated fabric
- wall thickness 0.015 in approx.

### Temperature range

- exhaust gas temperatures to 390°F \*
- \* when correctly applied with exhaust gas funnels and sufficient fresh air supply (50% approximate).

### Delivery variants

- further diameters and lengths available on request
- black (standard)
- special colors: colored spiral
- customer-specific branding

### Design

- PROTAPE® tape hose

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at [www.norres.com/us/technology/](http://www.norres.com/us/technology/). NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68°F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimate user of the product. The individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as a general guide only.
