

# PROTAPE® ALU-PES 369

Aluminium/Polyester air conditioning hose, flame-resistant (M1)

### Applications

- flexible hose/ ducting for gases
- Ventilation, air conditioning, heating system
- Bathroom and kitchen extraction and ventilation

### Properties

- super-light weight

- highly flexible + compressible 20:1
- flame-retardant according to: EN13501-1:2018, B-s1, d0
- conforms to RoHS guideline

### Temperature range

- 22°F to 284°F

### Design

- PROTAPE® tape hose
- spring steel wire integrated in wall
- fabric-reinforced tape; wall: aluminum coated fabric
- Pressure max. 250 mm H2O
- Air speed max. 30 m/s

### Delivery variants

- further diameters and lengths available on request
- silver

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at [www.norres.com/us/technology/](http://www.norres.com/us/technology/). NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68°F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimate user of the product. The individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as a general guide only.
