

MANUFACTURER CERTIFICATION ACCORDING TO PU AS FOOD

Version: 2023-06-16

Better. Stronger. Together

Manufacturer certification of NORRES | Baggerman PU AS FOOD hoses regarding suitability for applications in the food sector

Polyurethane hoses of the NORRES | Baggerman PU AS FOOD series, which are made from special, particularly high-quality raw materials, are perfectly suited for many applications in the food sector. This product series includes the following hose types, with transparent, not coloured wall:

- **NORPLAST® 4606 AIRFLEX® PU AS FOOD** in variation 4603...000

The properties of the basic material used for the hose wall include the following:

- **EU-Directive 10/2011 and EC 1935/2004:**
The monomers and additives used comply with EU Directive 10/2011 and EC 1935/2004.

Note: Some of the guidelines for food contact cited above, which are based on EU Directives, lists limitations of the residual content of individual components of synthetic materials. However, it should be noted that the EU-Directive 10/2011, which applies to all EU member states, sets a limit value for the migration in synthetic products for food sector. Even if, as in this case, an official statement from the manufacturer is available, according to EU-Directive 10/2011, these tests should be performed on the end product by the processor using the corresponding foods or food simulation materials. Times and temperatures should be chosen to reflect actual conditions during the normal use of the articles, in accordance with the rule from EU-Directive 10/2011. It is the responsibility of the processor to ensure that the article is suitable for the intended purpose.)

Our quality management system is certified according to DIN/ISO 9001.
