

We are looking to fill this position to strengthen our IT team:

Business Controller – Focus: DATA Analyst (m/f/d)

📍 **Location: Gelsenkirchen (Germany) or Roermond (Netherlands)**

🕒 **Flexibility: Hybrid, full-time**

A task that challenges:

- You act as a business partner and support the business areas with data-based analyses, forecasts and decision templates.
- You will continue to create and develop reports, forecasts and budget plans.
- You analyse financial KPIs and derive specific recommendations for action.
- You advise internal stakeholders on profitability, cost efficiency and strategic financial issues.
- You will provide support for investment calculations, business cases and strategic projects.
- You build, develop and automate Power BI dashboards.
- You optimise data models and reporting structures for greater transparency and efficiency.
- You will introduce AI-based analysis and forecasting tools and automate recurring analyses.
- You actively drive forward digital transformation in controlling.

A profile that convinces:

- You have a degree in finance/controlling and several years of experience in (international) controlling.
- You confidently analyse complex relationships, have a strong aptitude for numbers and an understanding of financial relationships.
- You have a high level of IT affinity and are confident in using Power BI and data modelling.
- You are experienced in working with Navision and have experience with AI tools and automated analysis processes.
- You speak English fluently; other languages are an advantage.
- You are a team player with intercultural skills and work proactively, in a structured and solution-oriented manner.

A working environment that inspires (location-dependent):

- **Laying the right foundations:** We create a tailor-made induction plan for every position.
- **Further development:** We support your further training with internal and external courses so that you always stay on the ball.
- **Modern working environment:** You will work in an innovative and dynamic working environment with flexible working hours.
- **Stay fit:** With our Jobrad bicycle lease.

Have we sparked your interest?

Then we look forward to receiving your detailed application – including your salary expectations and earliest possible start date – exclusively online at [norres-baggerman.com/karriere](https://www.norres-baggerman.com/karriere)

We look forward to getting to know you!

About the Norres Baggerman Group:

We are a globally operating corporate group and have been setting standards in the development and production of innovative high-tech hose system solutions for over 130 years. Our products are essential for key industries such as agriculture, food and pharmaceuticals, plastics processing, robotics, and energy technology. With around 400 employees across six production sites and 14 sales locations, we stand for excellence, quality, and sustainable success – worldwide.
