

NORRES
BAGGERMAN

Leading Performance.

We are looking to fill this position to strengthen our IT team:

ERP Developer Microsoft Dynamics 365 Business Central / Navision (f/m/d)

📍 Location: Gelsenkirchen (Germany) or Roermond (Netherlands)

🕒 Flexibility: Hybrid, full-time

A task that challenges:

- You develop, extend and operate Microsoft Dynamics NAV and Dynamics 365 Business Central within our international group of companies.
- Your focus is on the technical enhancement of our ERP systems – in particular AL development (formerly C/AL), extensions and customizations.
- You work in a heterogeneous ERP landscape with multiple NAV and Business Central tenants.
- You support the harmonisation and cloud readiness of our ERP systems as part of exciting international projects.

A profile that convinces:

- You have completed vocational training or a degree in an IT-related field (Computer Science, Business Informatics or similar) or have comparable practical experience.
- You have several years of experience as an ERP Developer working with Microsoft Dynamics NAV / Business Central.
- You have experience developing extensions, events, APIs and integrations.
- You are confident working with version control and deployment concepts (e.g. Git, pipelines, update scenarios) and have a solid understanding of ERP architecture and technical interdependencies.
- You are fluent in English and can communicate confidently in German and/or Dutch.
- You are a team player with intercultural competence and work proactively, in a structured way and with a solution-oriented mindset.

A working environment that inspires:

- **Laying the right foundations:** We create a tailor-made induction plan for every position.
- **Further development:** We support your further training with internal and external courses so that you always stay on top of it.
- **Modern working environment:** You will work in an innovative and dynamic working environment with flexible working hours.
- **Stay fit:** With our Jobrad bicycle lease.

Have we sparked your interest?

Then we look forward to receiving your compelling application – including your salary expectations and your earliest possible start date – exclusively online at www.norres-baggerman.com/karriere

We look forward to hearing from you!

About the Norres Baggerman Group:

We are a globally operating corporate group and have been setting standards in the development and production of innovative high-tech hose system solutions for over 135 years. Our products are essential for key industries such as agriculture, food and pharmaceuticals, plastics processing, robotics, and energy technology. With around 400 employees across six production sites and 14 sales locations, we stand for excellence, quality, and sustainable success – worldwide.
